

## CHKS Data Set 2018-2019

These are the anticipated total numbers of LGBT identified youth in California based on percentages from participation in the California Healthy Kids Survey. The data set includes 1,100,000 survey responses across all counties in the state from 7<sup>th</sup>, 9<sup>th</sup>, and 11<sup>th</sup> graders so the projections are quite accurate to within a fraction of a percentage point. There were 8,008 participants for SLO County which is virtually 50% of the total student enrollment of middle school and high school students in SLO county, making these projections quite accurate.
